Contains the purest and high quality essential oils of Orange, Frankincense, Patchouli, Clove, Ginger, Myrrh, Cinnamon and Spruce This blend contains not only a higher quality version of each essential oil, but also includes the top quality OMANI Frankincense instead of the cheaper version of INDIAN Frankincense. We also use a much higher grade of fresh Ginger oil Madagascar so the blend doesn't have that "dirty" background odor that comes from using Chinese ginger. Experience *an abundance of odor* and prosperity with **Abundant Life!** *No carriers This is also in > 15 ML < not >5 ML<*

ANCIENT WISDOM - An ancient blend which promotes a feeling of devotion and raises your spiritual awareness. This blend is made with our highest quality Omani frankincense and the excellent dark Kenyan myrrh along with other natural essential oils to enhance the aroma. It is a beautiful blend that is actually superior in odor than if we just blended the best frankincense and best myrrh and left it at that. The proprietary blend of the other oils really bring out what one expects for this type of profile and making it more cost effective in the process than just using native combination.

ANCIENT WISDOM ANOINTING OIL - same as above only in Olive Oil base for massages.

DEEP BLUE HEALING An amazing blend for deep tissue work as well as skin inflammation (including psoriasis and eczema) that includes the finest Corsican Helichrysum, Blue Chamomile, Blue Tansy, Roman chamomile, Carrot seed, and French lavender. *NOTE: This blend uses fractionated coconut oil as a carrier so it's not recommended for a use in a diffuser.*

DEET ALTERNATIVE! - A natural blend with pleasing aroma of Lemon-Vannilla scent. Pre-blended in fractionated coconut oil and ready to use or can be diluted more with additional fractionated coconut oil if too strong.

EXODUS ANOINTING OIL - taken from the actual formula in the Bible (Exodus 30:23). This blend of Myrrh, Cassia, Calamus and Cinnamon is a sacred and powerful blend. The Biblical measurements of shekels and hins were converted to modern day units and blended exactly as specified in the original King James text. *Warning: As stated in the Bible this oil is only to be made by a perfumer but ironically is only for ceremonial anointing by a member of the clergy and not to be used on the body or you will have to face the wrath of God! Please read Exodus 30:32.*

FOCUS - Improves concentration, direction and focus! A mind altering blend of Lavandin, Elemi, Melissa, Ylang Ylang, Osmanthus Absolute, and Violet Absolute. The odor is beautiful and the effect is awesome! No carriers.

FOUR THIEVES The finest Clove, Lemon, Cinnamon, Eucalyptus, and Rosemary. Developed according to the legend about the four thieves in 15th century England who used these and other aromatics to protect themselves while robbing plague victims. No carriers oils.

HUNTERS EARTH If you are a hunter you will want this blend! This natural blend (NO DEET!) smells just like dirt and was designed to give the hunter a natural mask that is powerful enough to cover up the human scent but will blend in with the natural surroundings so it won't spook the animals. It really does smell just like dirt/leaves and also has the same added advantages of our DEET ALTERNATIVE blend. To our knowledge this is the only blend on the market that combines odor masking along with true insect protection.

MEMORIES An excellent strong yet affordable blend of Cinnamon, Nutmeg and Orange that will re-ignite your fire and get you excited about life again! No carrier oils.

PANBONE EO BLEND - A blend of Wintergreen, Helichrysum, Clove and Peppermint. If you like YL's Panaway then you will love this version which uses the better Corsican Helichrysum instead of Balkan material.

This is the ultimate outdoor blend incorporating about 30 essential oils to improve the odor and increase longevity. Already pre-blended in fractionated coconut oil but still very strong so can be diluted further to suit your desired strength.
